Professional Summary

I am a MERN stack developer with expertise in building scalable, user-friendly webapplications.Proficient in MongoDB, Express.js,React.js, and Node.js, I excel at creating dynamic front-end interfaces and robust back-end systems. My experience includes designing full-stack solutions, optimizing performance, and collaborating in agile environments to deliver impactful projects.

Professional Experience

MERN Stack Developer Intern

2023 – 2024

Stack Up Learning Hub, Trivandrum

- Built and maintained web applications using the MERN stack (**MongoDB, Express.js, React.js, Node.js**).
- Designed and implemented user-friendly frontend interfaces and scalable backend APIs.
- Developed secure authentication and authorization systems using sessions and JWT.
- Managed and optimized PostgreSQL and MongoDB databases to support high-performance applications.
- Managed a team of engineers and supervisors for site acceptance and documentation.

Completed full-stack projects, including:

2023-2024

- **E-commerce Platform:** Designed frontend, server-side logic, and database.
- **Employment Management System:** Developed complete system architecture and functionality.
- **Login-Based Chatroom:** Implemented real-time messaging with user authentication, Designed a **user-friendly interface** and optimized backend for handling multiple concurrent users.

Skills

- Frontend Development: HTML5, CSS, Bootstrap, JavaScript, React.js.
- Backend Development: Node.js, Express.js, RESTful API design, Authentication Authorization (Sessions, JWT).
- Database Management: PostgreSQL, MongoDB.

Education

Higher Secondary

2016-2018
